THE EMERGENCE OF CHINA: FROM CONFUCIUS TO THE EMPIRE

Warring States Project. Paperback. Book Condition: new. BRAND NEW, The Emergence of China: From Confucius to the Empire, A. Taeko Brooks, E. Bruce Brooks, The Emergence of China presents the classical period in its own terms. It contains more than 500 translated excerpts from the classical texts, linked by a running commentary which traces the evolution and interaction of the different schools of thought. These are shown in dialogue about issues from tax policy to the length of the mourning period for a parent. Some texts labor to establish the legal and political structures of the new state, while others passionately oppose its war orientation, or amusingly ridicule those who supported it. Here are the arguments of the Hundred Schools of classical thought, for the first time restored to life and vividly presented. There are six topical chapters, each treating a major subject in chronological order, framed by a preliminary background chapter and a concluding survey of the eventual Empire. Each chapter includes several brief Methodological Moments, as samples of the philological method on which the work is based. Occasional footnotes point to historical parallels in Greece, Rome, the Ancient Near East, and the mediaeval-to-modern transition in Europe, which at many points the Chinese classical period resembles. At the back of the book are a guide to alternate Chinese romanizations, a list of passages translated, and a subject index. A preliminary version of The Emergence of China was classroom-tested, and the suggestions of teachers and students were incorporated into the final version. The results of those classroom trials, in both history and philosophy classes, were favorable. This is the only account of early Chinese thought which presents it against the background of the momentous changes taking place in the early Chinese state, and the only account of the early Chinese...
