Fragment

By Warren Fahy

Random House USA Inc. Paperback / softback. Book Condition: new. BRAND NEW, Fragment, Warren Fahy, In this powerhouse of suspense--as brilliantly imagined as "Jurassic Park" and "The Ruins"--scientists have made a startling discovery: a fragment of a lost continent, an island with an ecosystem unlike any they've seen before . . . an ecosystem that could topple ours like a house of cards. The time is now. The place is the "Trident," a long-range research vessel hired by the reality TV show "Sealife." Aboard is a cast of ambitious young scientists. With a director dying for drama, tiny Henders Island might be just what the show needs. Until the first scientist sets foot on Henders--and the ultimate test of survival begins . . . For when they reach the island's shores, scientists are utterly unprepared for what they find--creatures unlike any ever recorded in natural history. This is not a lost world frozen in time, an island of mutants, or a lab where science has gone mad: this is the Earth as it might have looked after evolving on a separate path for "half a billion years." Soon the scientists will stumble on something more shocking than anything humanity...
