*This publication is indeed gripping and intriguing. It is actually written in basic terms and not difficult to understand. I am just pleased to explain how here is the greatest publication we have read through during my own lifestyle and could be the best pdf for at any time.*

Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from Labour s Political Economy: The Tariff Question No party is now committed to or earnestly proposes any other mode; and the plausible suggestion that Direct Taxation, because it bears more palpably on the community, would secure greater economy in the Public Expenditures, is confuted by the fact that the revenues of our great cities, and especially of this city, though mainly raised by Direct Taxation, are expended quite as foolishly and wastefully as those of the Federal Government ever have been. 2. The Question Stated. And now the question arises - On what principle shall Duties on Imports be assessed? Since nobody now proposes, or has ever seriously urged, a uniform assessment of so much percent, on the value of all articles imported - since even the present Tariff, framed by the avowed adversaries of Protection, levies one hundred percent, on certain articles, and thence down to thirty, twenty-five, twenty, fifteen, five, to nothing at all on others, what rule shall govern the discriminations made? What end shall they look to? What shall determine whether Tea, for example, shall be placed in the class of Free articles, or subjected to a duty of ten, twenty, or thirty per cent.? We who stand for Protection meet this question frankly and clearly. We all agree in saying, Impose higher rates of duty on those Foreign Products which come in competition in our markets with the products of our Home Industry, with lower Duties (or none at all, according to the varying wants of the Treasury, ) on those which do not thus compete with the products of our own Labor. Thus Tea and Coffee, now free, have...
