DECONVOLUCION DE LAS SENALES ULTRASONICAS EN LA EVALUACION NO DESTRUCTIVA

[DOWNLOAD](#)

Grin Verlag. Paperback. Book Condition: New. Paperback. 154 pages. Dimensions: 8.3in. x 5.8in. x 0.4in. Tesis doctoral Disertacin del ao 2006 en el tema Ingeniera elctrica, Nota: Summa cum laude, Universidad Central Marta Abreu de Las Villas (CEETI), Idioma: Espaol, Resumen: En este trabajo se presenta una aplicacin del procesamiento digital de seales en la Evaluacin no Destructiva, especficamente en los ensayos por ultrasonidos a metales. El objetivo se orienta a brindar tcnicas de procesamiento digital de seales ultrasnicas que permitan mejorar la estimacin de la respuesta del medio, facilitando la interpretacin de los ensayos, centrado en la obtencin de parmetros que permitan una determinacin ms precisa de los defectos, como la resolucin y la relacin seal a ruido. El anlisis de los mtodos reportados en la literatura conduce a la generacin de imgenes acsticas como objetivo de las investigaciones actuales. Una de las etapas fundamentales en la conformacin de imgenes, por su relacin con la resolucin axial, es la deconvolucin de las seales tomadas por los arreglos de transductores; en este bloque del sistema de conformacin se reporta la novedad de esta investigacin: la parametrizacin wavelet del filtro inverso, que recupera la informacin del medio ensayado a partir de la seal obtenida. El mtodo de deconvolucin propuesto mejora la resolucin temporal, y la incorporacin de la etapa de estimacin del pulso permite el trabajo en ambiente de deconvolucin ciega, mostrando ventajas en relacin con otros mtodos reportados en la literatura especializada. Estos resultados crean las bases para una nueva perspectiva en los ensayos ultrasnicos, brindando algoritmos y mtodos susceptibles de escalado a nivel de campo. This item ships from multiple locations. Your book may arrive from Roseburg,OR, La Vergne,TN. Paperback.
